Disclaimer & Cautionary Statement

This Presentation has been prepared as a summary only and does not contain all information about Manas Resources Limited’s (“MSR” or the “Company”) assets and liabilities, financial position and performance, profits and losses, prospects and rights and liabilities. The information in this Presentation and made to you verbally is subject to updating, completion, revision, further verification and amendment without notice.

The information contained in this Presentation or subsequently provided to the Recipient of this Presentation whether orally or in writing by or on behalf of MSR or its employees, agents or consultants ("Information") is provided to the Recipients on the terms and conditions set out in this notice. The purpose of this Presentation is to provide Recipients with Information relating to MSR. The Presentation has been prepared by MSR and each Recipient must make his/her own independent assessment and investigation of MSR and its business and assets and should not rely on any statement or the adequacy and accuracy of any Information contained in this Presentation.

MSR makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of the Information. MSR and its directors, employees, agents and consultants shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (express or implied) arising out of, contained in or derived from, or for any omissions from the Presentation, except liability under statute that cannot be excluded.

The performance and operations of MSR may be influenced by a number of factors, many of which are outside the control of MSR. No representation or warranty, express or implied, is made by MSR or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved either totally or partially or that any particular rate of return will be achieved. This Presentation does not constitute in any way an offer or invitation to subscribe for securities in MSR pursuant to the Corporations Act.

Statements regarding MSR’s plans with respect to its mineral properties are forward-looking statements. There can be no assurance that MSR’s plans for development and or sale of its mineral properties will proceed as currently expected. There can also be no assurance that MSR will be able to confirm the presence of mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of Manas Resources’ mineral properties.

The scientific and technical information contained within this Presentation is based on, and fairly represents information prepared by Mr. Christopher MacKenzie, a Competent Person who is a Chartered Geologist and a Fellow of The Geological Society of London. Mr. MacKenzie is the Chief Executive Officer of Manas Resources Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves”. Mr MacKenzie consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears. For further information please refer to ASX : MSR releases dated 18 May 2018, 08 August 2018 and 13 November 2018 and the ASX : MSR Quarterly Activities Report dated 29 October 2018.
MANAS: Why invest?

• Highly experienced team with proven track record of discovery: resource definition & development of gold deposits (> 10Moz Au in four countries);

• Ground holding covers > 2,000km² of prospective gold belts in Côte d’Ivoire, an attractive investment destination with stable fiscal regime & recent mining code;

• Flagship M’bengué Gold Project (MGP) < 10km from the largest gold mine in the country: prospectivity and recent diamond drilling results suggest excellent potential for discovery;

• Leading mine developer has taken a strategic position in the Company;

• Strong cash reserves of AUD $9.2M* enabling flexible approach to project development.

* As at 30th September 2018
MANAS: **Explorer and Project Generator**

- Target prospective but underexplored acquisitions by option / earn-in: conserve cash for exploration;
- Low overhead operating model – maximise money spent in the ground and move quickly;
- Reduce risk – focus on stable Countries but consider multiple jurisdictions;
- Build on other peoples work – fresh eyes reveal hidden targets;
- Plan the exit strategy early – treat exploration as a business;
- Maintain strong cash balance – enables opportunistic decisions.
MANAS: People & Corporate Snapshot

**Alan Campbell** – Non-Executive Chairman
- 30+ years in global exploration and mining for major and junior companies;
- Former MD of Papillon Resources which was acquired by B2 Gold.

**Chris MacKenzie** – Chief Executive Officer
- Chartered Geologist with 25+ years in exploration and mining;
- Co-founder and former Executive Chairman of Helio Resource Corp..

**Mark Calderwood** – Non-Executive Director
- 30+ years in gold exploration and mining;
- Former MD of Perseus Mining. Current MD of Tawana Resources.

**Dave Kelly** – Non-Executive Director
- 30+ years in the mining sector, significant experience in investment banking and as a corporate advisor;
- Currently GM, Corporate Strategy at Resolute Mining.

**Susmit Shah** – Company Secretary & Non-Executive Director
- Chartered accountant with 25+ years experience as director and advisor;
- Significant African experience.

**Capital Structure**

Note 1: Other securities on issue: 30m options exercisable at $0.005 & 40m options exercisable at $0.0075

- “Mine finding” Board and management team with track record of success and delivery;
- Two mining companies – Resolute (ASX:RSG) and Perseus (ASX:PRU) – are supportive shareholders with extensive operational experience across Africa.
Côte d’Ivoire: Acquisition Rationale

- West African craton - world’s largest Proterozoic gold producing region: annual gold production > Yilgarn craton of Western Australia;

- Numerous prolific Birimian greenstone belts extend through Ghana, Senegal, Burkina Faso, Mali, Guinea and Côte d’Ivoire;

- Major discoveries include the 62Moz Au Obuasi deposit in Ghana, the 13Moz Au Sadiola deposit in Mali, and the 7Moz Au Essakane deposit in Burkina Faso;

- Côte d'Ivoire is significantly underexplored – new frontier for world-class discoveries.
Côte d’Ivoire: Country Overview & Projects

- Attractive West African destination for foreign investment;
- Well educated population, Francophone, good infrastructure;
- Manas is building a significant project portfolio through farm-in and option agreements covering > 2,000km² of highly prospective greenstones;
- Manas projects are well located adjacent to existing mines or in regions with significant exploration activity;
- Flagship MGP project poised for exploration success.
Côte d’Ivoire: M’bengué Gold Project (MGP)

- Zero cost entry option to earn 70% following US$2M of exploration expenditure over 400km² licence owned by Perseus subsidiary;
- 6km from the world-class Tongon pit (~4.5Moz Au) and 70km southeast of Perseus’s Sissingué mine;
- Extensive exploration database provides opportunity to rapidly advance activities;
- Strategic location and critical timing of Tongon mine life provides opportunity to monetise early if resource potential identified;

- RC drill results include:
  - 28m @ 8.41g/t Au - Turaco Target
  - 27m @ 3.71g/t Au - “
  - 36m @ 1.96g/t Au - “
  - 58m @ 1.48g/t Au - “

- Latest DD drill results:
  - 7m @ 7.54g/t Au - Madala Target
  - 9m @ 5.05g/t Au - Turaco Target
  - 9m @ 2.60g/t Au - “
  - 21m @ 2.11g/t Au - “

- Numerous other targets to be drill tested.
MGP: Geology and exploration

- 400km² of highly prospective Senoufo greenstone belt: Birimian volcano-sedimentary packages intruded by numerous granitoids;
- Two major shear zones (each > 20km long) identified in magnetics;

Historical work (PRU):
- >10,000 soil samples;
- AC: 254 holes for 12,124m;
- RAB: 230 holes for 7,386m;
- RC: 152 holes for 10,016m
- 160km² of airborne Magnetics (100m line spacing)
MGP: Main Structural Corridor

- Magnetics & geochemistry defines two parallel anomalous corridors;
- Each > 6km long and open along strike;
- Maiden DD drill programme (13 holes for 1,300m) November 2018;
- Numerous significant intercepts within 10km of Tongon plant;
- Exploration upside is substantial, further drilling programmes planned;
MGP: Madala – New Discovery

- 1.7km S of main drilled target (Turaco). Both targets within the major gold in soil anomaly;
- Only 2 holes drilled to confirm orientation of mineralisation;
- Mineralisation open along strike and to depth;
MGP: Exploration Upside

- Major geophysical structures through the licence area indicate good potential for discovery outside of the main area of work.

- Original, low-density, regional soil sampling grids (Au only) show spotty anomalism.

- Manas will cover whole licence in more detailed multi-element soil sampling to identify other potential resource areas in proximity to the Tongon mine.

- IP surveys proposed to generate new drill targets.

MANAS: Exploration Timeline
MANAS: Investment Case

• ‘Mine finding’ board and management team;

• 2,000km² ground holdings of highly prospective terrain located in investor-friendly West African country;

• Flagship MGP project shows signs of resource potential, adjacent to a major gold producer with declining resources and 2 years of mine life;

• Strong treasury of AUD $9.2M enabling flexible approach to project development with strategic and supportive major shareholders;

• Low market EV compared to peers provides potential for rapid share appreciation on news-flow.

### Appendix III: Côte D'Ivoire Factsheet

- Former French colony; Presidential Republic; Area > 332,000km²; Population > 26 million;
- GDP > USD97 Billion; Inflation 0.8%; main exports – Cocoa, Coffee, Oil
- Corporate and Capital Gains Taxes: 25%
- ICSID, MEIGA, EITI member
- Modern mining code (2014):
  - Exploration licence validity 4+3+3 years, 400km maximum size. VAT and duty exemptions apply to exploration and mining licences
  - State is granted a 10% FCI in Mining Licences
  - 5 year exemption for corporate income tax and annual minimum tax for miners
  - Sliding royalty 3% if gold price below USD$1,000/oz to 6% if above $2,000/oz
Appendix IV: Other Project Data

- For further information please refer to ASX: MSR releases dated 23 January 2018, 18 May 2018 and 29 May 2018.
Eburnea Gold Project (EGP): Review

- EGP located in central-eastern Cote d’Ivoire, ~35km NW of Bouake (pop. 540,000);
- Well established infrastructure, no large villages, bisected by the N’zi River (flows year-round);
- Two permit applications covering $477\text{km}^2$;
- Southern extension of Hounde greenstone belt which hosts several major gold deposits in Burkina Faso.
- Minimal previous exploration activities completed within the project area
- Previously held by Newcrest as part of a large regional package: extensive information database including airborne magnetics
- A walk up drill target exists below and along strike of the artisanal mining activities
Gonsan Gold Project (GGP): Review

- SW Cote d’Ivoire, approximately 35km from Liberia & 85 km from Man;
- < 1,180 km² total land area under application in 3 permit areas;
- Highly prospective: immediately E&N of Endeavour’s Ity Mine (<2.9Moz);
- 80 km of prospective strike along the westerly boundary of the structures holding the Ity skarn deposit;

- Located on the Toulépleu-Ity klippe, a small remnant of the Birimian within the Leo-Man shield;
- The area is characterised by a series of granodioritic and rhyolitic intrusions into a sedimentary sequence of volcano-sediments, carbonates and tuffaceous volcanics;
- Extensive exploration within Endeavour’s project area identified numerous prospects close to Ity mine, close to the GGP boundary indicating good exploration potential for Manas;
- Artisanal mining activities in the area
